

## THE CITY OF SAN DIEGO

April 7, 2010

Re: Master Storm Water System Maintenance Program

Thank you for contacting the City of San Diego Storm Water Department regarding your concerns about flooding in your neighborhood. As promised, this letter is intended to keep you informed about the City's progress in maintaining the flood control channels near your property. As you are aware, the City is working with a host of outside regulators to approve a program that will allow **regular maintenance of the flood control channels** in your area.

The department will soon take its proposal for that Master Storm Water System Maintenance Program and its associated Program Environmental Impact Report to a meeting of the Community Planners Committee. That meeting is open to the public and provides an opportunity to comment on the need for the Master Maintenance Program.

**Community Planners Committee**  
**Tuesday, April 27, 2010 – 7:00 p.m.**  
**City of San Diego**  
**Metro Operations Center II Auditorium**  
**9192 Topaz Way**  
**San Diego, CA 92123**

Anyone wishing to address the Committee will need to arrive before the item is called and fill out a speaker's slip. Given the number of attendees anticipated at this meeting there may be an opportunity to join an organized presentation about the need for the Master Maintenance Program. Anyone wishing to join such a presentation will be asked to yield their time on behalf of the organized group.

We will continue to provide you regular updates about the approval process for the Master Maintenance Program. Should you have any questions, please feel free to contact Anne B. Jarque, Senior Planner, by phone at (619) 527-3131 or e-mail [ajarque@sandiego.gov](mailto:ajarque@sandiego.gov). Our team is available to address any questions you may have about the flood control channel maintenance effort or about the committee meeting referenced above.

Sincerely,

DL/AJ
